

Be still and know that I am God; I will be exalted among the nations, I will be exalted in the earth. Psalm 46:10

Symmetry of a Tree

Looking at a tree from a different point of view: Bare limbs, once leaf covered, now lay quietly. What else can they do? Oh, when shaken by the wind, those branches might sway.

But in the stillness, the tree, with most of its branches pointing upward, sits and stays. In the light of day, I saw the tree another way. I could see the shape. Once covered with leaves it was impossible to see, but barren in winter's cold I saw beauty...in the symmetry of the tree.
